HIGHLIGHTS

Current funds revenues for institutions of higher education totaled $26.4 billion for fiscal year 1971-72. This was a 9.9-percent increase over the preceding fiscal year's total of $24.0 billion.

Publicly controlled institutions continued to report an increasing share of total revenues. In 1971-72, revenues for publicly controlled institutions totaled $17.2 billion, or 65.2 percent of the total. This was a 10.0-percent increase over the $15.6 billion received in 1970-71, when the public sector accounted for 65.1 percent of all revenues.

Privately controlled institutions reported nearly $9.2 billion in current funds revenues in 1971-72. This was a 9.7-percent increase over the nearly $8.4 billion received the year before.

Governmental appropriations were the source of greatest revenues. The total was nearly $8.6 billion in 1971-72, of which State governments provided almost $7.0 billion, or 81.5 percent of the total governmental appropriations.

Student tuition and fees ranked second as a source of revenues to institutions of higher education. These revenues rose 11.5 percent to $5.6 billion.

Current funds expenditures by all institutions of higher education rose at a faster pace than did total enrollments. Expenditures increased 9.4 percent to $25.7 billion in 1971-72, while enrollments increased only 4.3 percent.

The largest expenditure of current funds was for instruction and departmental research. Of the $25.7 billion of current funds expenditures in 1971-72, nearly $8.5 billion (33.0 percent) were expended on instruction and departmental research.

Average expenditures per student (EPS) for all institutions of higher education went up $131, from the 1970-71 average of $2,719 to $2,850 in 1971-72. However, when adjusted for inflation, expenditures per student in constant dollars increased by $33 from $2,817 in 1970-71 to $2,850 in 1971-72.

EPS averages in 1971-72 ranged from a high of $6,317 for private universities to a low of $1,044 for public 2-year colleges.

FOREWORD

This publication provides State and national totals of various financial data acquired from institutions of higher education in the questionnaire--"Financial Statistics of Institutions of Higher Education" (OE Form 2300-4)--distributed in 1972 as a component of the seventh annual Higher Education General Information Survey (HEGIS). Seeking data for 1971-72, the questionnaire acquired information on current funds revenues and expenditures, physical plant assets, indebtedness on physical plant, and the value and earnings of endowments. This publication is limited to data on current funds revenues and expenditures. A separate publication will deal with the property-related data.

A small number of institutions did not respond to the survey. (See Appendix E for a list of nonrespondents.) For these institutions, data were imputed so that the totals and subtotals represent all institutions including nonrespondents. (See Appendix A, Methodology.)

Because some institutions have placed restrictions on dissemination of their data, the tabulations contain some obvious deletions. Any data which, either alone or in combination with other data or knowledge, would permit any reader to discern such restricted data have been eliminated from the tables.

So many people contributed to this publication that it is impossible to credit them all by name. Mention must, however, be made of the contributions of Estelle Aubrey and Ruth Muffler, who prepared and organized the statistical materials.

We extend our sincere appreciation to the more than 2,800 business officers and other officials of those institutions and State agencies who assisted in development of the survey and completed the questionnaire.

SUMMARY

Current funds revenues and expenditures of institutions of higher education continued an increasing trend in 1971-72. Revenues increased 9.9 percent, from the 1970-71 total of $24.0 billion to $26.4 billion for 1971-72; expenditures increased 9.4 percent for this period, from $23.5 billion to $25.7 billion. (See tables A and B.) From 1969-70 to 1970-71, revenues and expenditures had increased 11.0 percent and 11.1 percent, respectively; from 1968-69 to 1969-70, 14.0 percent and 13.9 percent, respectively.

The rates of increase for revenues and expenditures exceeded those for enrollments (up 4.3 percent) and inflation 1/ (up 3.6 percent). The result was an increase in funds per student from 1970-71 to 1971-72. (See table C.)

The same situation may be observed in the 3-year period from 1968-69 to 1971-72. Current funds revenues and expenditures rose 39.1 percent and 38.4 percent, respectively--double the 19.2-percent growth in enrollments and more than twice the 15.4-percent inflation. Even if the dollar amounts are adjusted for inflation and then divided by the enrollments, the revenues per student and expenditures per student are larger in 1971-72 than they were in 1968-69.

Summaries of the sources of revenues and functions of expenditures in 1971-72 are shown in charts 1 and 2.

Current Funds Revenues

Current funds revenues for all institutions of higher education increased 9.9 percent, from $24.0 billion in 1970-71 to $26.4 billion in 1971-72. In the latter year, the publicly controlled institutions reported revenues of $17.2 billion (65.2 percent of the total)--a 10.0-percent increase over the $15.6 billion received in 1970-71. Current funds revenues for private institutions increased 9.7 percent in 1971-72--from nearly $8.4 billion in 1970-71 to nearly $9.2 billion. Although revenues for private institutions increased in 1971-72, their percentage of total revenues dropped very slightly from 34.9 percent in 1970-71 to 34.8 percent in 1971-72. This was at least partially due to the fact that during this period enrollments in private institutions decreased 0.1 percent, while enrollments in public institutions increased 5.8 percent. (See tables A and C.)

1/ As measured by Consumer Price Index. The monthly indexes were averaged on a July-to-June basis to correspond with the school year.

Chart 1.--Total current funds revenues of institutions of higher education, by source: Aggregate United States, fiscal year 1972

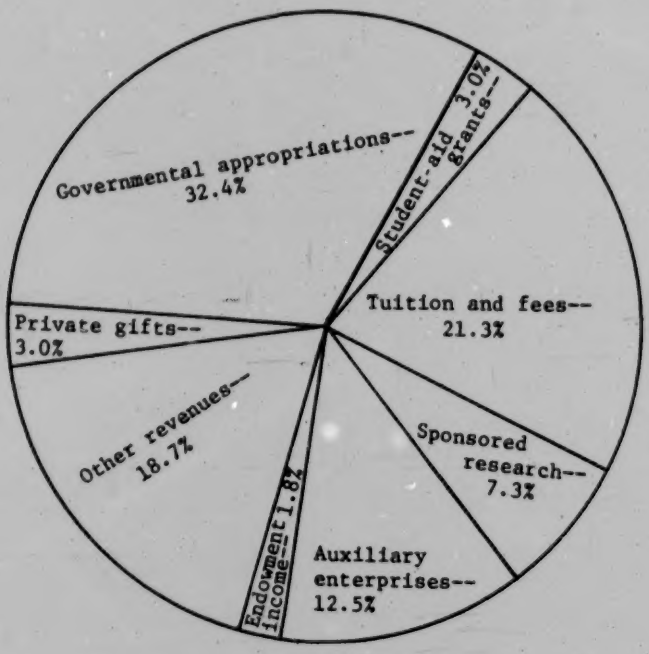

Chart 2.--Total current funds expenditures of institutions of higher education, by function: Aggregate United States, fiscal year 1972

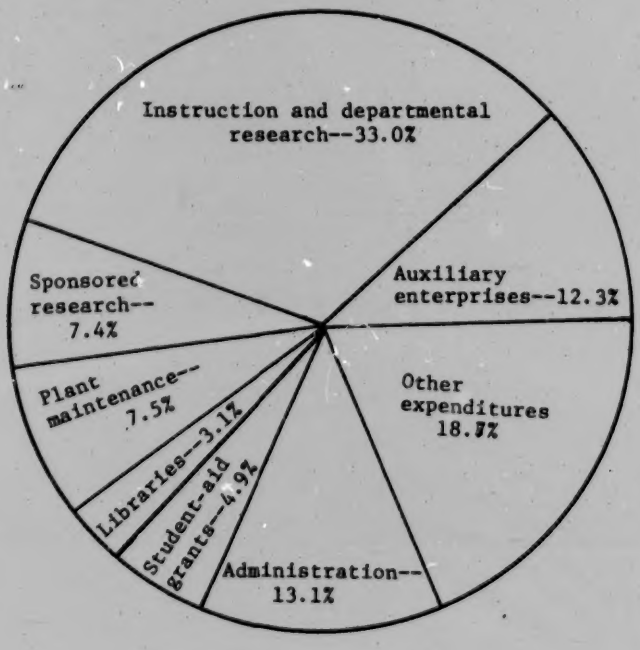

Revenues for private universities and other 4-year institutions increased 8.4 percent to nearly $4.5 billion and 11.4 percent to $4.4 billion, respectively. The enrollments for universities decreased 2.6 percent, while other 4-year schools increased 1.2 percent for 1971-72. Revenues for private 2-year colleges increased 3.9 percent to nearly $249 million; at the same time, enrollments decreased 0.3 percent.

Public universities continued to report the largest share of current funds revenues of any level of institution in 1971-72. Their revenues of $9.8 billion represented a 7.7-percent increase over the 1970-71 figure of $9.1 billion. The revenues of other public 4-year institutions went up 12.2 percent to $4.7 billion. However, 2-year public colleges reported the greatest percentage increase in revenues for 1971-72. Revenues for these schools rose 15.4 percent--from nearly $2.3 billion to $2.6 billion, while enrollments in public 2-year colleges increased 12.6 percent.

Sources of Revenues

For all institutions, the sources of greatest revenues were governmental appropriations2_/ (32.4 percent), totaling nearly $8.6 billion in 1971-72. One source--State government appropriations--was reported to have provided nearly $7.0 billion or 81.5 percent. This represented a 9.5-percent increase over the nearly $6.4 billion provided the year before. Local governmental appropriations totaled $913 million, or 9.4 percent more than in the previous fiscal year. The Federal Government's appropriations were nearly $671 million, or 18.3 percent more than the $567 million reported in 1970-71.

Student tuition and fees ranked second as a source of revenues for colleges and universities. These revenues rose 11.5 percent to $5.6 billion (21.3 percent of all current-funds revenues in 1971-72), as a result of the 4.3-percent larger enrollments and higher student charges.

Gross receipts from housing and food services ($2.0 billion) and from other auxiliary enterprises--such as student stores and intercollegiate athletics--($1.3 billion) ranked third and fifth, respectively, as sources of current funds. Combined revenues from auxiliary enterprises represented 12.6 percent of total current-funds revenues.

Sponsored research 3/--the fourth largest money source--furnished nearly 7.3 percent of all current funds revenues. Sponsored research funds in 1971-72 amounted to $1.9 billion (a 3.4-percent increase over the preceding fiscal year), of which the Federal Government supplied nearly $1.6 billion.

2/ Included all unrestricted funds received from governmental sources that were expendable for educational and general purposes.

3/ Revenues received from outside organizations for specific research projects undertaken in accordance with contracts or other written agreements.

Much smaller sources of current funds for educational and general purposes were private gifts and endowment income. Private gifts totaled nearly $766 million, 4/ or 2.9 percent of total current-funds revenues. Private gifts increased 12.8 percent over the preceding fiscal year's total of almost $679 million. Endowment income was an even smaller source of funds in 1971-72--nearly $481 million or 1.8 percent of total revenues and an increase of 2.2 percent over the preceding year's figure of nearly $471 million.

The five largest sources of current funds revenues for publicly controlled institutions were in the same order and in about the same proportions as for all institutions of higher education.

For private institutions, however, the pattern differed with respect to the proportion of total current funds revenues that each source provided. The five largest sources of current funds for private institutions--in decreasing order of size--were as follows:

Student tuition and fees, the largest single source, providing funds that totaled nearly $3.3 billion or 35.7 percent of the nearly $9.2 billion total revenues. The 9.3-percent increase in tuition and fees revenues over the preceding year indicated that private institutions raised their charges to the student appreciably, since enrollments during the same period decreased 0.1 percent.

Gross revenues from housing and food services, totaling $885 million.

Revenues for sponsored research, totaling nearly $845 million, or 9.2 percent of total current funds revenues.

Private gifts, totaling nearly $675 million in 1971-72, or 7.3 percent of total revenues. Gifts were 10.4 percent more than the 1970-71 total of $611 million.

Other service programs, which included Federally Funded Research and Development Centers operated by institutions of higher education, totaling nearly $539 million, or 5.9 percent of total revenues.

Current Funds Expenditures

Current funds expenditures for all institutions of higher education increased 9.4 percent, from $23.5 billion in 1970-71 to over $25.7 billion in 1971-72. Expenditures by publicly controlled institutions were $16.6 billion, or 64.6 percent of all institutions' expenditures. This was nearly $1.5 billion more than in the preceding fiscal year and represented an increase of 9.9 percent.

4/ Included bequests and the estimated value of contributed services; excluded private funds received for sponsored research, other sponsored programs, and student-aid grants.

Privately controlled institutions expended slightly over $9.1 billion, or $79.4 million less than they reported in revenues. In 1970-71, expenditures at private institutions exceeded revenues by $26 million. Expenditures for these schools increased 8.4 percent in 1971-72, or nearly $708 million over the preceding year's total of $8.4 billion.

Current funds revenues exceeded current funds expenditures at all levels of public and private institutions in 1971-72. In the preceding year, current-funds expenditures exceeded current-funds revenues at private universities by more than $37 million.

Functions of Expenditures

For all institutions, the largest portion of current expenditures was for instruction and departmental research. These expenditures were nearly $8.5 billion 5/ (33.0 percent of total current funds expenditures)--an increase of nearly $640 million (8.1 percent) over 1970-71 when expenditures for instruction and departmental research represented 33.4 percent of the total.

Expenditures of the executive and administrative offices and those for general institutional expense (called "other educational and general expenditures") were nearly $3.4 billion in 1971-72, or 13.1 percent of the total. This second largest area of expenditures increased 12.1 percent over the $3.0 billion expended the previous year.

The third largest area--physical plant maintenance and operation--expended $1.9 billion--an increase of 11.4 over the 1970-71 figure of $1.7 billion.

Sponsored research--the fourth largest area of current-funds expenditures--totaled nearly $1.9 billion for 1971-72; this was $35.2 million less than revenues for the same period.

Housing and food-services expenditures--the fifth largest area--were over $1.8 billion, nearly $153.3 million less than revenues.

The five largest items of expenditure for publicly controlled institutions were in the same sequence as those listed above for all institutions, public and private.

For privately controlled institutions, the five largest categories of expenditure were instruction and departmental research, other educational and general, sponsored research, housing and food services, and physical plant maintenance and operation, in that order.

The total current-funds expenditures of more than $25.7 billion included an estimated $618 million that was actually for physical assets.

5/ Included in this figure were teachers' salaries and other expenses directly attributable to the cost of instruction. Sponsored-research expenditures were not included in this figure.

Expenditures per Student

Expenditures per student (EPS) were computed to indicate trends in the relationship between enrollments and current funds expenditures. These EPS averages were derived by dividing current funds expenditures data by enrollment data. 6/ This was done for two fiscal years—1970-71 and 1971-72--in actual and constant dollars, and the increase in EPS was noted. (See table C.)

The average EPS for all institutions in 1971-72 was $2,850. The comparable figure for 1970-71 was $2,719, $131 less than in 1971-72. However, if the expenditures are adjusted for inflation, and stated in constant 1971-72 dollars, the EPS in 1970-71 becomes $2,817 or $33 less than 1971-72.

The EPS averages increased more for privately controlled than for publicly controlled institutions, since the private institutions had a greater gulf between their increased expenditures and their relatively constant enrollments than did public institutions. From 1970-71 to 1971-72, private institutions increased their total current-funds expenditures 8.4 percent, while total enrollment decreased 0.1 percent. For public institutions, however, expenditures went up 9.9 percent and enrollments increased 5.8 percent. The EPS average for publicly controlled institutions increased $89, from $2,334 in 1970-71 to $2,423 in 1971-72. Private institutions' average EPS rose $332, from $3,866 to $4,198. Private universities had the highest EPS ($6,317); 7/ public universities had the next highest average ($4,023); the lowest EPS figure ($1,044) was registered for public 2-year colleges.

6/ Total enrollment data were used; they included all degree-credit and non-degree-credit students. Data used were published in Fall Enrollment in Higher Education, 1971, U.S. Department of Health, Education, and Welfare, Office of Education, Washington, D.C.: U.S. Government Printing Office 1973, p. 1.

7/ U.S. Service Schools actually had the highest EPS ($14,444), but they were included in the statistics for publicly controlled other 4-year institutions.

METHODOLOGY

The survey form "Financial Statistics of Institutions of Higher Education," OE 2300-4, was part of the Higher Education General Information Survey package for 1972. A copy of the survey form appears as appendix F.

The total population of inquiry was 2,617 institutions of higher education, comprising, with branches and campuses, 2,894 reporting units. Again this year, as before, some institutions were unable to provide financial data for each campus. For this reason (hopefully for the last time) data in this report are aggregated by institution rather than by campus or reporting unit. On this basis, completed questionnaires were available for 2,556 institutions of the 2,617 surveyed--a response rate of 97.7 percent. The population of inquiry and the numbers of respondents and nonrespondents, by level of institution, by control, and by region and State, are shown in appendixes B, C, and D, respectively. The institutions that failed to respond or to provide adequate data are listed in appendix E.

One of two methods was used to adjust for nonresponse, depending on whether an institution's data were available for a previous or a succeeding year. If an institution had reported data for another year, those data were adjusted in accordance with trends established in previous HEGIS surveys and then entered as the institution's report for fiscal year 1972.

If no other year's data were available for an institution, peer institution data for fiscal year 1972 were used. Peer institutions were selected on the basis of three criteria: location (State or region), level of institution, and enrollment size. Wherever possible, matches were also made with regard to institutional control.

HIGHER EDUCATION GENERAL INFORMATION SURVEY

FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION FOR FISCAL YEAR ENDING 1972

INSTRUCTIONS AND DEFINITIONS

GENERAL

To avoid unnecessary overlapping of Federal surveys of the finances of your institution, this survey is designed to include the financial statistics previously collected by the U.S. Department of Commerce, Bureau of the Census Form F-15.

The definitions and instructions used here are compatible with those in **College and University Business Administration, Revised Edition**, published by the American Council on Education, One Dupont Circle, Washington, D.C. 20036.

Please attach supplemental information, comments, etc., on a separate sheet.

Please examine the definitions and instructions. If you need additional clarification on any of the items, please call Mr. Paul F. Mertins at (202) 962-7[illegible], in Washington, D.C.

Data requested on this financial survey are for the fiscal year of your institution.

Data for your institution which are not kept on the books of account of your institution, but are kept on the records of another organization or agency for your institution, should be included *(e.g., State schools should report or estimate the value of physical plant even though records are maintained by a State agency).*

Exclude agency funds, i.e., funds handled by the institution in a custodial capacity only *(e.g., funds for student organizations).*

All data reported should be whole dollars only--omit cents.

Please complete this survey and return it to the U.S. Office of Education, National Center for Educational Statistics, ATTENTION: Room 2136-HEGIS, 400 Maryland Avenue, SW., Washington, D.C. 20202, **not later the October 31, 1972.**

NOTE: *This year's form is in six parts. For any item in any part where exact data do not exist, please give estimates. Items referenced in specific instructions below will be referred to by their line numbers.*

SPECIFIC

PART A - CURRENT FUNDS REVENUES BY SOURCE FOR FISCAL YEAR ENDING 1972

LINE 2. Report all tuition and fees assessed against students for educational and general purposes. Include here those tuition and fees which your State collects and returns in the form of State appropriations. Tuition and fee remissions or exemptions should be assessed and reported as student fees revenues although it is not intended to effect collection from the students. A corresponding amount, as well as the amount of other student aid granted out of current funds revenues, should be shown as expenditures of student aid grants *(Part B, Line 11).*

LINE 3. Governmental appropriations include all amounts received from governmental sources that are expendable for educational and general purposes. This item is the sum of Lines 4, 7, and 8.

LINE 5. Report Federal payments channeled through State finance agencies.

LINE 9. Report income from investments of restricted and unrestricted endowment, term endowment, quasi-endowment funds, Federal and State land-grant funds *(land grant institutions),* and income from funds held in irrevocable trusts by others.

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: *(1)* an institution having two or more campuses responsible to a central administration (*which central administration may or may not be located on one of the administratively equal campuses*) or *(2)* an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (*sometimes called the parent institution*) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (*i.e., has a relatively permanent administration*), which offers an organized program or programs of work of at least 2 years (*as opposed to courses*), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.
